Dear Parents

Greetings from Harvest International School!

Covid has brought in new norms and heightened awareness regarding safety and hygiene. We, as responsible citizens must follow these social norms in order to ensure safety, not only for our families, but also for our society.

Let us all actively participate in Jan Andolan for COVID-19 in order to make our country Corona-free.

As socially responsible citizens, let us all take a pledge to slow down the transmission of COVID-19 .

Kindly open the link given below, for the pledge. Once you take the pledge, you will get a certificate for your participation. You can download the certificate and update your respective class teachers of your active participation.
